

# ATOS V8 Software Release Seminar

## ATOS V8 Software release Seminar

The 3D metrology leading company: GOM mbH (Germany) is now releasing their newest software version 8.

V8 software supplies us not only normal version up, but also a big innovation toward 3D metrology process.

This seminar consists not only of presentation, but also of Live Demonstration using ATOS TripleScan 16M and ATOS Core scanners.

You can freely ask our technical staffs any questions.

Please do not miss this opportunity!!
